| <input type="checkbox"/> Lupus or other auto immune disease.   | <input type="checkbox"/> Prostate Enlargement                                       |
| <input type="checkbox"/> Fibromyalgia.                         | <input type="checkbox"/> Cancer (type): _____                                       |
|                                                                | Year: _____                                                                         |
|                                                                | <input type="checkbox"/> Other: _____                                               |

I understand that if I begin testosterone replacement with any testosterone treatment, including testosterone pellets, that I will produce less testosterone from my testicles and if I stop replacement, I may experience a temporary decrease in my testosterone production. Testosterone Pellets should be completely out of your system in 12 months.

By beginning treatment, I accept all the risks of therapy stated herein and future risks that might be reported. I understand that higher than normal physiologic levels may be reached to create the necessary hormonal balance.
